1. Our team

MARTIN SHAVOV- SCRUM TRAINER

MMShavov22@codingburgas.bg

VELIZAR MIHAILOV - DEVELOPER

VNMihailov22@codingburgas.bg

ANTON BABEV - DEVELOPER

AKBabev22@codingburgas.bg

TSVETOMIR STOILOV- DEVELOPER

TSStoilov22@codingburgas.bg

2. Resume

2.1 GOAL:

Our goal is to inform people about the planets in the solar system, galaxies and the other space bodies that can be found out there in the vast unknown of outer space.

2.2 STAGES OF REALIZATION:

At first, we had to distribute the roles and then we started brainstorming ideas until we finally decided to settle on informing people on three categories of space bodies.

2.3 USED PROGRAMS

- **VISUAL STUDIO 2023**

Visual Studio is an integrated development environment developed by Microsoft. It is used to develop computer programs including websites, web apps, web services and mobile apps. Visual Studio uses Microsoft software development platforms such as Windows API, Windows Forms, Windows Presentation Foundation , Windows Store and Microsoft Silverlight. It can produce both native code and managed code.

- **WORD**

Microsoft Word or MS Word is a graphical word processing program that users can type with. It is made by the computer company Microsoft. Its purpose is to allow users to type and save documents. We used Word to create this documentation.

- **POWER POINT**

PowerPoint is a complete presentation graphics package. It gives you everything you need to produce a professional-looking presentation. This was the place where we did our presentation.
